

999

In an emergency in Bahrain, dial 999.

POLICE

AMBULANCE

FIRE

Free from any phone. The operator will ask which service you need and will stay on the line with you.

WHEN YOU CALL, SAY

- Who you are:** your name and the number you are calling from.
- Exactly where you are:** villa or flat number, building, road, block and area, plus a landmark or junction nearby. The address block below has it ready.
- What has happened:** the kind of incident, how many people are hurt, their age, and how serious it looks. For example: household accident, one child, head bleeding.

REMEMBER

- Speak slowly and repeat the address once.
- Stay on the line until the operator ends the call.
- Do not move an injured person unless they are in danger where they are.
- Do not hang up to make other calls; ask someone else to do that.
